Department of Energy
Washington, D.C. 20585

JUN 11 1979

Admiral Stansfield Turner, USN, Ret.
Director of Central Intelligence
Washington, D.C. 20505

Dear Admiral Turner:

I have been given the responsibility of preparing the Department of Energy's report to the President and Congress on the results of preliminary energy audits performed by Federal departments and agencies. I am therefore requesting your assistance in obtaining your organization's report by July 1, 1979. This will permit me to assure that your results are included in the report which Secretary Schlesinger is required to send to Congress by August 15, 1979.

The National Energy Policy Conservation Act, P.L. 95-619, Title V, Part 3, Sec. 547(a) requires that the results of your preliminary energy audits of buildings which have 30,000 or more square feet of floor area, along with others which you may have completed, be included in our report this August.

I would appreciate your reporting your results on the enclosed forms prepared under Sec. 545(a)(2). I believe that it will facilitate the reporting of your audits as well as assisting us to quickly, accurately, and completely aggregate and report your results with those of the other 22 building owning Federal agencies.

Sincerely,

(signed)

Ms. Omi Walden
Assistant Secretary
Conservation and Solar applications
